

# Powerful Curriculum for Today's Christian Schools

# WHO WE ARE AND WHAT WE BELIEVE

## Our Mission Statement

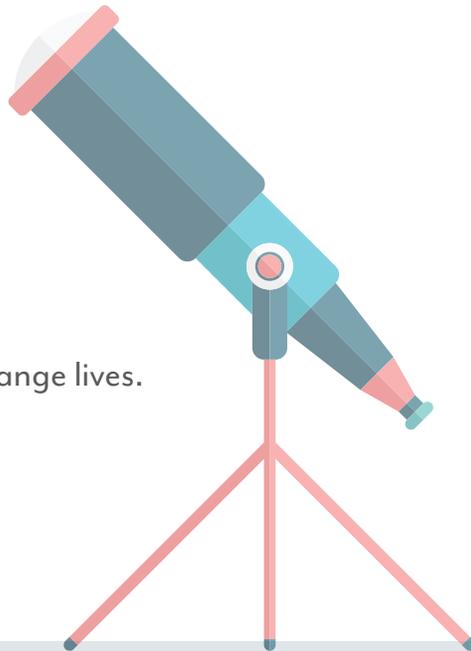

Driven by a passion to inspire, AOP equips students for the future by promoting academic excellence and Christian values.

## Our Vision

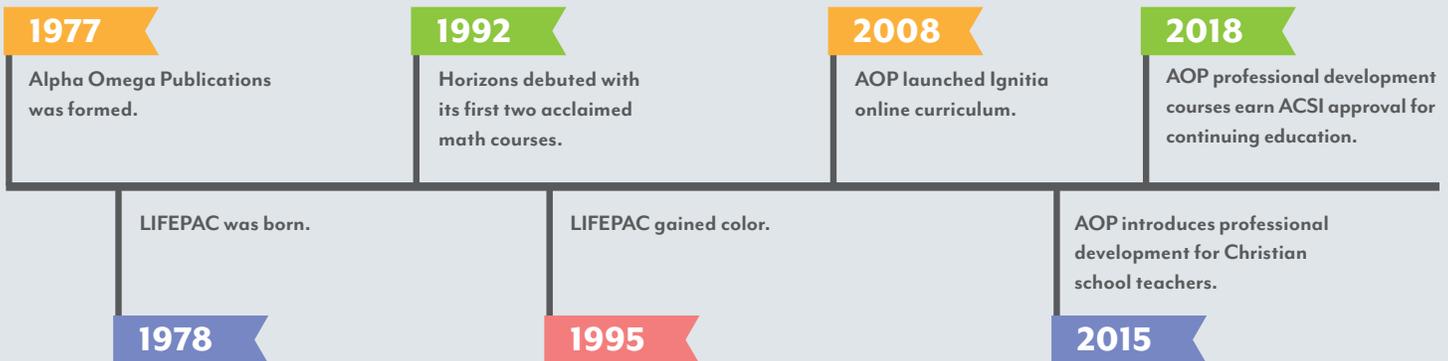

Changing education for the glory of God.

## Our Mission

Educate, inspire, and change lives.

For over 40 years, Alpha Omega Publications has been developing innovative Christian curriculum and providing outstanding support services. Founded by curriculum developers and writers in 1977, AOP was born from a vision to provide high-quality and Christ-centered educational materials in a fast-growing Christian school movement. Today, AOP serves over 1,100 Christian schools around the world.

# WHY WE ARE DIFFERENT

---

**Every student is uniquely created by the Lord in His own image.**

At Alpha Omega Publications, we recognize students as individuals who are blessed with specific talents and created to glorify God. Because of this ardent belief, we acknowledge every student learns differently, according to their own learning style. Therefore, we design various lesson formats incorporating biblically based course content so your Christian school can match lessons to the way your students learn best.

## Multiple Lesson Formats

Discover a variety of lesson formats created to engage and inspire students to learn. AOP offers both print and online lesson format curriculum options. AOP creates original, interactive lessons for each curriculum format, maximizing usability and learning enjoyment.

## Innovation through Presentation

AOP is proud of our reputation as the innovative technology leader in Christian education. This reputation comes from the forward-thinking curriculum we design. Every lesson, whether digital or print, is hand-crafted with precision to amplify student engagement while holding true to a proven, successful pedagogy.

## Built on God's Word

Because the Earth and everything in it is the Lord's, AOP integrates a Christian worldview and scripture into our curriculum, giving students a clear view of the interconnectedness of God's creation and fulfilling our mission to "educate, inspire, and change lives."

We decided on Alpha Omega Publications to provide the curriculum foundation for our school. We felt that AOP would give our school the educational stability we needed while giving us the flexibility to create the community Christian school the Lord had led us to start.

# LEARNING OPTIONS

More than just a curriculum provider, AOP provides your teachers, administrators, and students with personalized support to give your students the best educational experience available.

Grades 3–12
Online curriculum
Accessible 24/7
Over 50,000 multimedia elements

Ignitia offers time-saving administrative tools like automatic grading and lesson planning, individualized lesson plan options, an internal messaging system, and streamlined data management. The five main subjects of Bible, history and geography, language arts, math, and science are available, as well as a diverse set of electives.

Grades PreK–12
Colorful workbook curriculum
Engaging, hands-on lessons
Spiral learning method

Using a method of quick concept introduction, frequent review, and reinforcement, Horizons Math and Language Arts courses ground students in essential fundamentals. Courses include physical education (PreK–12), phonics and reading (K–3), spelling and vocabulary (1–3), math (K–8), health (K–8), and penmanship (1–6), as well as preschool programs for three- and four-year olds.

Grades K–12
Colorful print curriculum
Textbook and workbook lessons
Mastery-based learning

Combining textbook and workbook lessons into “worktext” units, this time-tested print curriculum for grades K–12 conveniently coordinates lessons, illustrations, exercises, projects, reviews, and tests. A series of 10 worktexts equals a full year of curriculum. The five main subjects of Bible, history and geography, language arts, math, and science are available, as well as engaging electives.

## CHOOSE YOUR EDUCATIONAL APPROACH

### BLENDLED LEARNING

Mix the perfect combination! Christian schools are increasingly integrating technology into their learning programs. With AOP, there is no need to build courses from the ground up. Teachers can easily mix and match face-to-face courses with 21st-century technology. For example, add lecture time to Ignitia or include online supplements with LIFEPAAC or Horizons.

### ACCELERATED LEARNING

Encourage achievement! In every school, certain students are looking for more information, a faster pace, and bigger challenges. Self-motivated and goal-directed, these students choose to reach beyond the standard benchmarks. With AOP curriculum, these students have the learning space they need to grow and thrive. Our courses can be paced and customized with additional content to inspire these students and keep them engaged.

### SUMMER SCHOOL

Expand students' options! Great for growing your enrollment and increasing revenue, AOP curriculum is perfectly suited for summer school programs and other continuous learning or interim courses. Customizable lessons allow teachers to choose content along with start and end dates, and the online convenience of Ignitia means lessons don't have to be held in a classroom.

### ONLINE COURSES

Present new possibilities! Around-the-clock online accessibility provides a practical solution for students who are unable to attend school in a traditional classroom. Ignitia's online courses include challenging lessons and automatic assessment to keep those students focused and on course for academic success.

### INDIVIDUALIZED SUPPORT

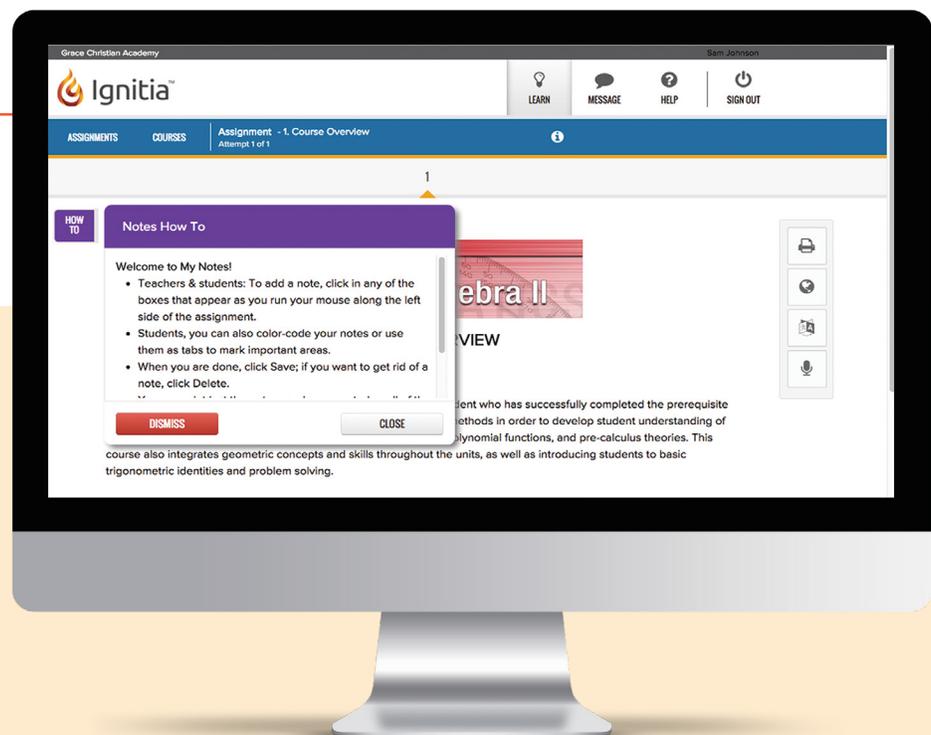

Keep students on track for graduation! AOP curriculum offers interactive lessons that engage students and support retention of key concepts. In Ignitia, relevant Internet links encourage self-directed, real-world learning to promote academic exploration and creative discovery. 24/7 access with Ignitia also allows students to work anywhere at any time, an ideal solution for students whose schedules or personal circumstances hinder attendance.

## Online Curriculum for Grades 3–12

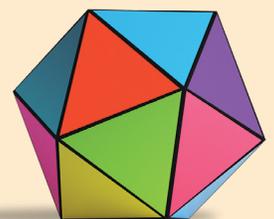

Watch your students grow with Ignitia! Bible-based courses include the five main subject areas of Bible, history and geography, language arts, math, and science, as well as a broad set of engaging electives. Available 24/7, Ignitia courses are accessible from any computer with a high-speed Internet connection.

Ignitia offers mastery-based lessons, assignments, quizzes, and tests. The lessons include more than 50,000 multimedia elements like interactive games, audio and video clips, external web links, and off-computer assignments. In addition, time-saving tools for teachers include automatic grading and lesson planning, individualized lesson planning, real-time curriculum updates, a convenient internal messaging system, and streamlined data management for easy reporting.

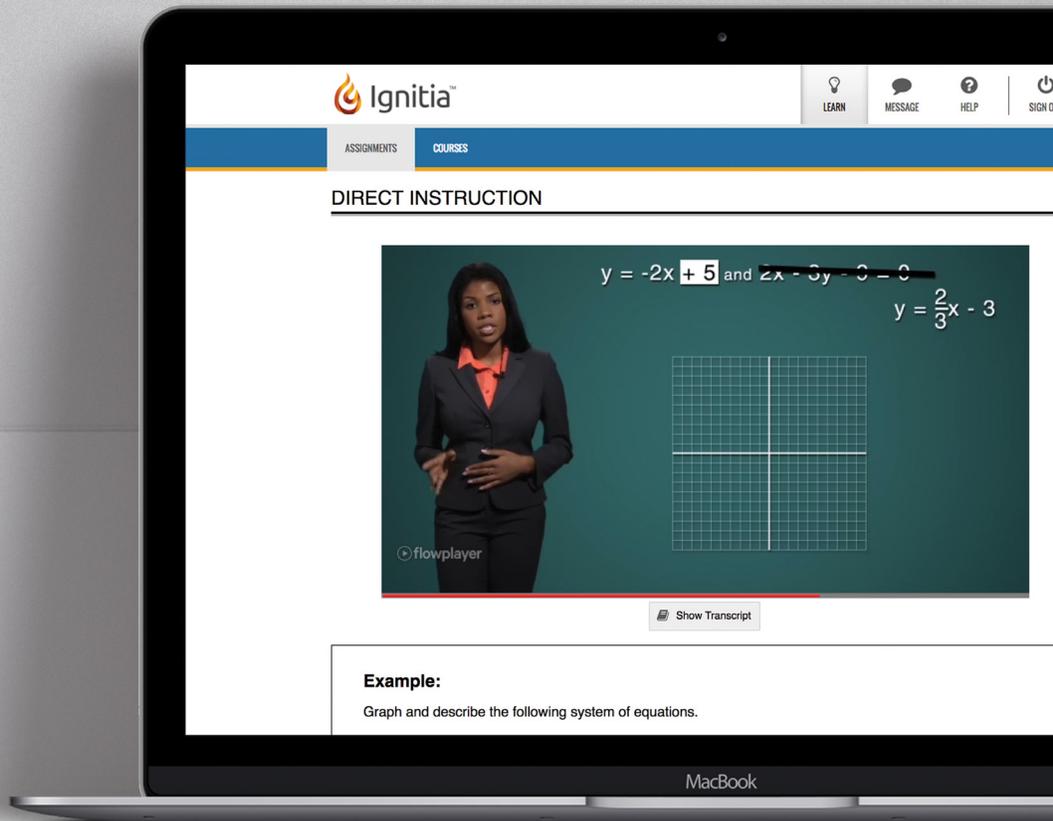

You log in and it's like, 'Wow!' Everything is right there. It's organized. I was so used to having like 4 textbooks and 30 different notebooks.

# Horizons

## Workbook Curriculum for Grades PreK–12

Horizons is a colorful print curriculum that uses a spiral learning method of quick introduction, review, and reinforcement to ground students in essential fundamentals and help them easily memorize concepts through repetition. Courses include phonics and reading, spelling and vocabulary, penmanship, and math, as well as preschool programs for three- and four-year olds. Physical education and health also are available as electives.

Rooted in the Bible, Horizons is well-known for its eye-appealing content, hands-on activities, and solid results of student comprehension. Students use workbooks with removable pages, and a test is generally administered after every 10 lessons. Fun, hands-on activities that coordinate with lesson concepts are included in the teacher's guides. These easy-to-use guides also include daily planners, lesson schedules, clear objectives, and answer keys.

## Worktext Curriculum for Grades K–12

LIFEPAC is a colorful print curriculum with Bible-based content for grades K–12. Integrating Scripture passages to help students connect daily learning to biblical truth, LIFEPAC is available in the five main subjects of Bible, history and geography, language arts, math, and science, as well as 14 electives. The curriculum uses mastery-based learning, so students master the concepts and content in each unit before progressing further.

Combining textbook and workbook lessons into “worktext” units, LIFEPAC conveniently coordinates lessons, illustrations, exercises, projects, reviews, and tests. Ten LIFEPAC worktexts provide one full year of a course. Individual worktexts take approximately three to four weeks to complete, giving students a motivating sense of accomplishment as they complete each worktext. Teacher’s guides are available with a curriculum overview, lesson objectives, additional activity ideas, and answer keys.

# COURSE LISTING

\* One semester elective.

† Additional readers may be required.

‡ Schools using LIFEPAC may determine which grade level students should be placed in for each subject with placement tests.

# CHRISTIAN SCHOOL SUPPORT SERVICES

It takes a team to run your Christian school. That's why we provide your teachers, administrators, and students with personalized support to give your students the best educational experience available.

## School Education Consultant

To simplify the process for your Christian school, we select a specific education consultant to be your school's point of contact for all your needs. By using this support strategy, your education consultant already knows the background of your school and can quickly assist you whenever you need support or have questions. Your school is given your education consultant's direct phone number and email address, so the consultant is always just a call or click away.

In addition, your education consultant checks in throughout the year to see how curriculum and services are working for your Christian school. These periodic follow-ups help AOP build a personal relationship with your school and make it more convenient for your staff to relay ideas and needs to AOP.

To learn who your education consultant is or have one assigned to your Christian school, call 877.760.0278.

## Technical Support

When you need assistance, our responsive service representatives are ready with productive and focused support. Monday through Friday from 7:30 am to 9:30 pm (ET), knowledgeable technical specialists are ready to address hardware, network, and Internet connection challenges via email at [techsup@aop.com](mailto:techsup@aop.com) or phone at 800.753.1593.

Through [aop.com/schools/support/ignitia-resources](https://aop.com/schools/support/ignitia-resources), Christian schools also have access to valuable resources like quick start guides and video tutorials.

I was introduced to AOP as a means of expanding our course offerings. AOP allows us to address each student individually without the costs associated with traditional programs. It also allows us to offer a course as needed and work with a student who wants to accelerate his education. We continue to find new exciting ways we can utilize this program.

*Secondary Principal,  
Cornerstone Christian Schools*

# PROFESSIONAL DEVELOPMENT AND TRAINING OPTIONS

Explore professional development and training options, including select free ACSI-approved courses. AOP's library of free online webinars cover important topics affecting today's students, teachers, and schools, including mental health, bullying, teaching practices, and many more.

On-demand workshops are available for a variety of topics such as:

Safe and Supportive Schools

Considerations in Curriculum Implementation

Transitioning Students from High School to College

And More!

To watch recorded workshops on-demand or to view a complete list of upcoming courses, visit [aop.com/pd](https://aop.com/pd)
